

PROFILES FOR OVER 18 CHILDREN.

Makumbi Children's Home is trying its best to educate children who are above eighteen years of age. The Home is sending them to universities and to vocational colleges where they are doing different courses. This is a transition or a preparation of weaning them off so that they can be self-reliant. Four of the Children are studying at Midlands State University and one is studying at the University of Zimbabwe. Six are doing vocational courses like Carpentry, hotel and catering, nurse aid and tourism and hospitality. Four children completed their vocational last year 2016. Six are in preparation of doing vocational courses and 2 are doing O'level. Home aims to equip every child so that they can help themselves in future. The following are profiles for the children.

-
- We hope that we will be able to equip all over 18 children so that they can fit well in the society, they can be confident and competent. Giving them fish they continue to come back asking for some more but teaching them how to fish you have equipped them for life.
- NB: It is to be noted that the plan is subject to review. A number may be weaned before scheduled time while for others, short extensions may be considered.
